

TEAM Fresno - GREAT HELPERS

Team® Fresno does more than just make sure their customers' freight gets delivered on time. They make sure their community is taken care of as well. With the help of two of their customers, Team FAT has been helping the local Children's Hospital of Central California and helping with the fight against Leukemia.

Team Worldwide Fresno along with their customer, Wayne Stewart from M2, helped the local Children's Hospital raise money for any child stricken with an illness.

With your help, Katelin and Baylie were able to raise over \$600.00 for Children's Hospital this year!!

Thank you for your generous donations,
The Elwess and Stewart Family

M2 Antenna Systems has been supplying high quality products and services for over 25 years. They are an industry leader in VHF/UHF products with a wide selection of products and strong technical support.

M2 is working with the Change Bandits to help raise money for the Children's Hospital Foundation. Change Bandits are volunteers who agree to ask for donations from their co-workers, classmates, families and friends

during the three weeks leading up to the 10th Annual KISS Country for

Kids Radiothon. Change Bandits can represent companies, departments within companies, schools, organizations, etc. Once a person gives you their change, add it to your coin bag and watch it grow!

Team Fresno, along with Kelly Small from NDS, helped the fight against Leukemia recently. Kelly is receiving wonderful coaching from Team in Training. She ran a 10k (6 miles) race at Bass Lake in 1 hour and 13 minutes! And from now until her next event in November, she will increase her mileage by 2 miles every Saturday. Way to go Kelly - keep up the good work!

For more than 30 years, NDS, Inc. has been a leader in water management solutions for both residential and commercial markets. NDS, Inc. is the industry's primary source for stormwater management, efficient landscape irrigation, and water management valves. NDS, Inc. is committed to providing the highest quality products and services, while supporting the environment through the development of "green" products that efficiently manage and utilize one of the most valuable resources, water. Headquartered in Woodland Hills, CA, all NDS, Inc. products are available throughout North America and Europe.
